### PROFESSIONAL SUMMARY

I am a BCA student and Full Stack Developer with hands-on experience in HTML, CSS, JavaScript, Node.js, Express, and MongoDB. I build responsive, user-focused web applications and deploy real-world projects using modern development practices. I have a strong understanding of REST APIs, database management, and version control, and I am passionate about learning and contributing to real-world development teams.

### TECHNICAL SKILLS

Frontend: HTML, CSS, Tailwind CSS, JavaScript, React

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

APIs: REST API Development and Integration

Tools & Platforms: Git, GitHub, Vercel, Render

Core Concepts: Responsive Web Design, Algorithms, Web Development

### PROJECTS

#### Airbnb Hotel Booking Web Application

- Developed a full-stack hotel booking web application with a responsive and user-friendly interface.
- Implemented booking forms connected to a Node.js and Express.js backend.
- Designed and managed MongoDB Atlas database for secure data storage.
- Deployed frontend on Vercel and backend on Render.
- Used Git and GitHub for version control.
